WEDGE & RUBBER

The glass angle can be adjusted by adjusting the two screws on the wedge. No need to remove glass, safe and easy.

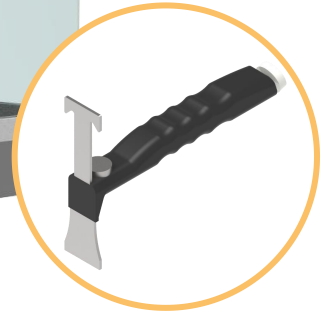

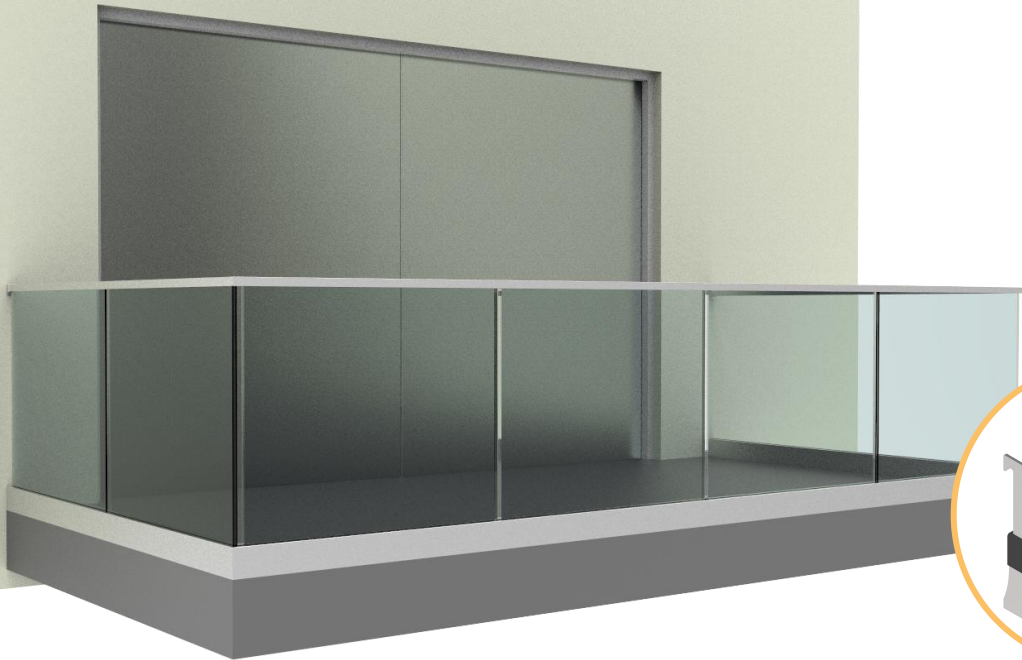

## Tilt for Glass Alignment

- Customized for Different Sizes of Glass

GLASS (mm)	WEDGE	BUCKLE BAR	RUBBER (outside)	RUBBER (inside)
12/12.76/13.52				
15				
16.76/17.52				
19				
20.76/21.52				

- Recommend Fixing for Different Application

APPLICATION	TYPE OF FIXING	SIZE OF FIXING (adjustable to actual floor thickness)	PICTURE
Brick Wall/ Concrete Floor	Hexagon Head Expansion Screws	M8×100	
Wooden Floor	Hexagon Head Wood Screws	ST12×100	
Metal Frame	DIN933 Hexagon Head Bolts	M12×100	

## Complete System

JINFER offers a complete system of aluminum base shoe glass railing, including handrail systems and installation tools.

## Easy Installation

Without the bulkiness of traditional aluminum base shoe, JINFER ALU<sup>36</sup> offers a simpler installation experience.

## Quick Selection

No need to think about every detail. Provide the installation environment, JINFER ALU<sup>36</sup> is ready to go.
